EXPERIENCE

MagnusMinds IT Solution

Ahmedabad, India

Front-End Web Developer | UI/UX

May 2025 – Present

- Led UI/UX enhancements and component redesign for the Tanyoo platform, improving usability and performance by 20% using HTML, Ionic, and Angular, and optimized the company website with Gulp automation and on-page SEO, boosting organic traffic by 15%.
- Developed React.js and HTML-based themes and an auction portal, increasing user engagement by 30% through interactive, logic-driven experiences.
- Engineered a custom Azure and Razor-based theme framework to streamline multi-client website deployment, enhancing flexibility and reducing development time by 25%.
- Formulated Canva and Figma assets for daily festival, hiring, and marketing campaigns, increasing brand visibility by 35% across digital platforms.

Sapphire Software Solutions

Ahmedabad, India

Front-End Web Developer | Web Designer

January 2022 – April 2025

- Implemented responsive design and improved UI/UX across in-house projects using HTML, CSS, JavaScript, JQuery, Bootstrap 5, and Next.js boosting engagement by 20% and conversions by 15%. Optimized performance and cross-browser compatibility, reducing page load time by 40%. Refined major website sections in Next.js and enhanced code quality through clean architecture and unit testing 90%+ coverage.
- Delivered projects on time, meeting tight deadlines, exceeding client expectations and requirements, and ensuring client satisfaction by delivering high-quality solutions.
- Collaborated with cross-functional teams to design and develop responsive, W3C-compliant websites using HTML, CSS, Bootstrap 5, JavaScript, and JQuery. Delivered multiple client and in-house projects including Healthcare App migration, School ERP, LMS, and XBRL platforms optimized for performance and multi-device compatibility.
- Conducted code reviews and supply mentorship to junior developers.
- Innovated and launched key sections of the company website in NextJS, enhancing user experience for 10,000+ visitors strategic alignment with business objectives resulted in 15% more leads captured through polish up call-to-action placements.

PROJECTS

Doctor Management Solution

- Designed a robust Doctor Management System, consolidating patient data and billing functions, which enabled a 25% reduction in processing time for claims and improved accuracy in patient records management across the platform.

Employee Recognition System

- Developed and executed a user-friendly platform for employee recognition, featuring a calendar and gift voucher claims; tool is now utilized by over 200 employees, fostering a collaborative workplace environment.

KnowledgeCraft

- Initiated a scalable knowledge-sharing platform that now hosts over 5,000 articles, making valuable information easily accessible to users; facilitated community contributions that boosted overall content diversity and engagement.

Learning Management System (LMS)

- The main goal of the Learning Management System (LMS) was to focus on enhancing the educational experience. Produced a visually appealing and responsive website using HTML and CSS, focusing on user-friendly elements like the header, footer, features section, banner section; the redesign led to a 20% increase in time spent on site per visitor.
